## VINIFICATION AND MATURATION

The stems are separated from the grapes, which are softly pressed in cylinders under pressure, gently breaking their skins and releasing the juice. The juice is left to macerate on the skins for about a week in stainless steel vinifiers at a temperature of about 82-86°F. The wine is then placed to age in large Slavonian oak casks.

## COLOR

Brilliant, attractive and warm ruby-red color.

## BOUQUET

Ample and remarkably complex, with vinous and characteristic tones.

## PALATE

Dry on the palate and gracious, with delicate and soft veining and a fine and harmonious balance.

## FOOD COMBINATIONS

The wine can be consumed throughout a meal and makes a particularly fine companion for all red meat, game dishes, and savory preparations of the rural tradition.
